Jalban Muman

Undergraduate Student at the University of Mary Washington

Who is Jalban?

Jalban is an undergraduate student studying Computer Science at the University of Mary Washington. He is in his fourth year of studying for his bachelor's degree, and is actively seeking internships and applying to graduate school for a master's degree. He is also currently minoring in Aerospace Engineering and Geology in order to keep his skillset diverse. He has used computers for just about all of his life.

## Why is Jalban using Steam?

Jalban is an avid fan of video games and has played games on Steam for 9 years and counting. His favorite games to play include Terraria, Sekiro, Magic the Gathering: Arena, Hollow Knight, Hearts of Iron IV, Stardew Valley, and Paladins. Steam serves as the perfect hub for Jalban's games, allowing him to easily browse for new games, and easily access the games he already owns. It also enables him to easily play and share games with his friends.

Technology Experience

Preferred device:

Internet reliability:

Comfort level:

Relationship with Steam

Familiarity with site:
Very familiar

Visit frequency:
Often

Desired purpose:
Purchasing and playing video games
Playing games with friends

Content Engagement & Navigation Experience

Accessibility tool(s) used:
Closed captions

Issues faced:
The game library can get really messy once you own a lot of games.

Ease with navigation:
★★★★☆
